## **PLANTS AND ANIMALS AT THE PALM SPRINGS AERIAL TRAMWAY**

**PALM SPRINGS, CA** – The Palm Springs Aerial Tramway has a variety of plants and animals to learn about and explore. There are several opportunities to see animals that wouldn't appear down on the valley floor. Whether guests are hiking up top Mount San Jacinto, or just glancing out of the windows of the tramcars, there are unique plants and animals they can spot while on their visit at the Palm Springs Aerial Tramway. The following list showcases just a few visitors may see during their exploration.

### **Animals –**
